Limit access to groups / UPN

> For groups to work the Microsoft Entra application will need Group.Read.All permission

	Start the Service Scheduler install and upgrade wizard
	Select settings
	Locate the settings sso_entra_allow_groups and sso_allow_upn_suffix
	To limit access to certain group, add the group names separated by the ";" character.
	To limit to user UPN suffix enter the userPrincipalName suffix
