

Update global settings

You will need the Azure clientid, applicationid and secret from the [Azure Application](#)

	<p>Start the Service Scheduler Install / Upgrade wizard on the server</p>
<p>Account Settings Modify account settings and system settings</p> 	<p>Click next until the Account Settings page and select "Global"</p>
	<p>Set sso_entra_enabled to 1</p> <p>Add the azure application details to appropriate value clientid, secret and tenantid</p>

Stop service scheduler for prompting for account on login

Pick an account

Signed in

Use another account

To stop the prompt adjust global setting
sso_entra_authorize_endpoint

System setting details

System Setting

Key

sso_entra_authorize_endpoint

Value

https://login.microsoftonline.com/%tenantid%
/oauth2/v2.0/authorize?client_id=%clientid%
&response_type=code&redirect_uri=%redirect_uri%
&response_mode=query&scope=%scope%
&prompt=select_account

Copy

Paste

Remove
&prompt=select_account to
disable the prompt
