

Update global settings

You will need the Azure clientid, applicationid and secret from the [Azure Application](#)

	<p>Start the Service Scheduler Install / Upgrade wizard on the server</p>
<p>Account Settings Modify account settings and system settings</p> 	<p>Click next until the Account Settings page and select "Global"</p>
	<p>Set sso_entra_enabled to 1</p> <p>Add the azure application details to appropriate value clientid, secret and tenantid</p>

Stop service scheduler for prompting for account on login

	<p>To stop the prompt adjust global setting <code>sso_entra_authorize_endpoint</code></p>
	<p>https://login.microsoftonline.com/%tenantid%/oauth2/v2.0/authorize?client_id=%clientid%&response_type=code&redirect_uri=%redirect_uri%&response_mode=query&scope=%scope%&prompt=select_account</p> <p>Remove the <code>&prompt=select_account</code> to disable.</p>
