

# System settings

System settings contain many default and system options for Service Scheduler. Care should be taken before adjusting these settings.

**NOTE:** For changes to apply it is recommended that users restart the application

To access system settings

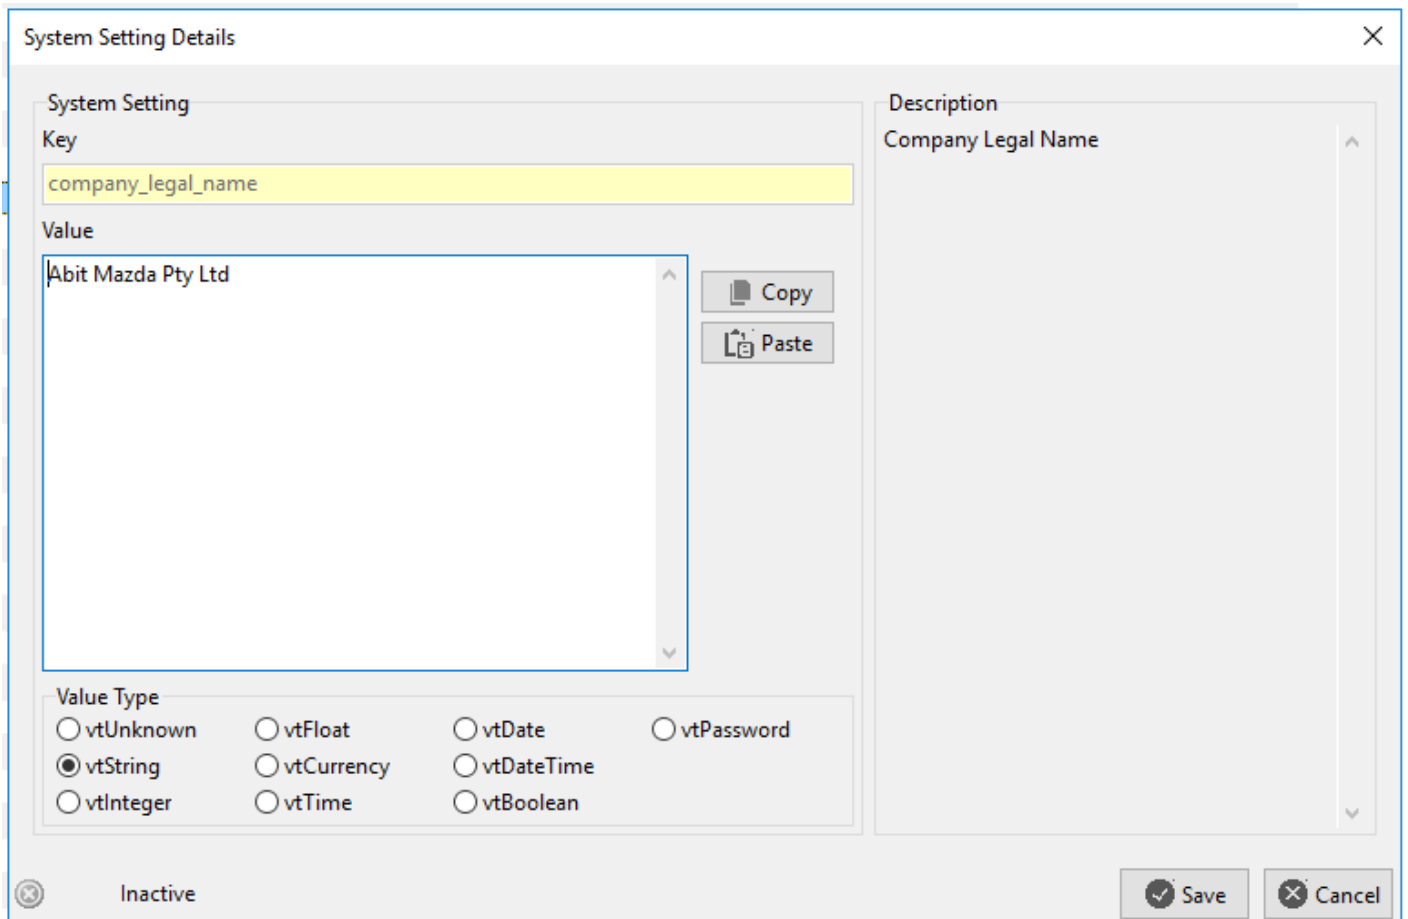

The screenshot shows the 'System Settings' window with the 'System' tab selected. The left sidebar contains navigation icons for Home, Contacts, Calendar, Sales, Service, Parts, and Management. The main area displays a table of system settings. The 'parts\_orders\_default\_smstemplateid' setting is highlighted. A red circle '2' is next to the 'System' icon in the left sidebar, and a red circle '1' is next to the 'Management' icon at the bottom left. A red warning message is displayed at the bottom of the settings table.

Setting Key	Setting Value	Setting..
loan_car_calendar_days		integer
loan_car_default_full_day		boolean
loan_car_delete_password		string
loan_car_override		string
