

# User administration - global user

Open HeidiSQL

Navigate to root catalog eg servsched. Find create\_global\_user

create\_global\_user

Parameter "param\_fullname" (VARCHAR(255))

OK Cancel

create\_global\_user

Parameter "param\_email\_address" (VARCHAR(255))

OK Cancel

create\_global\_user

Parameter "param\_username" (VARCHAR(255))

OK Cancel

create\_global\_user

Parameter "param\_password" (VARCHAR(255))

OK Cancel

1 = administrator, 0 = standard user

create\_global\_user

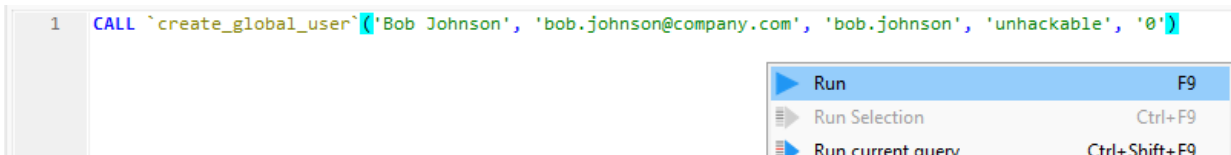

Parameter "param\_administrator" (INT)

OK Cancel

Right click and press Run (or F9)

if you had more than one user you can add multiple lines, just ensure each line ends with ';'.

```
CALL `create_global_user`('Bob Johnson', 'bob.johnson@company.com', 'bob.johnson',  
'unhackable', '0');  
CALL `create_global_user`('Jane Johnson', 'jane.johnson@company.com', 'jane.johnson',  
'unhackable', '0');
```
