

ABit SSLVPN Auto Provisioning Guide

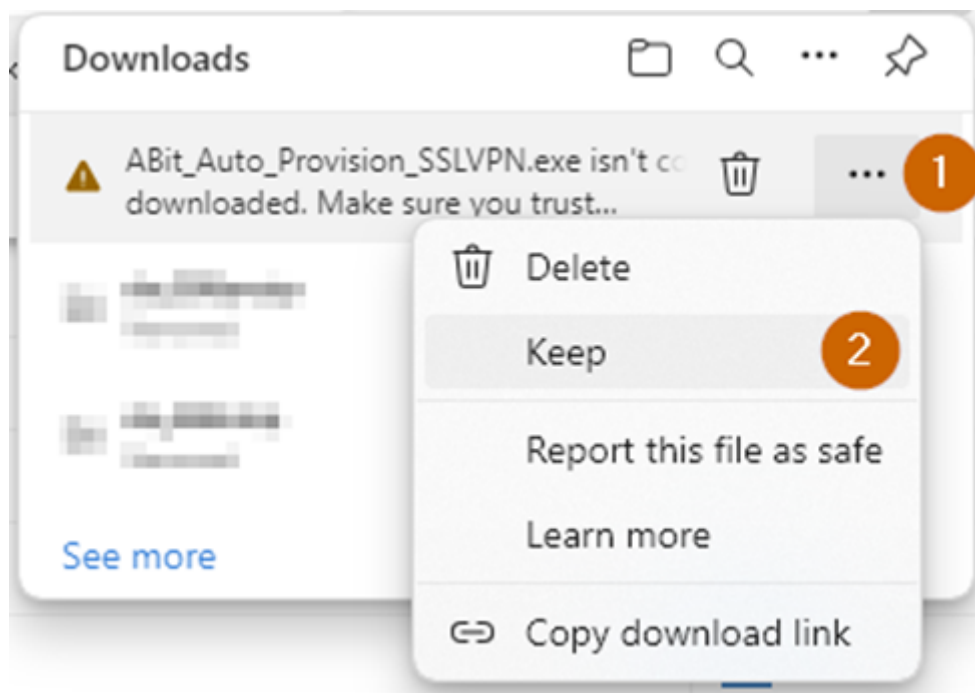

- Ensure User Firewall account is SSLVPN and MFA Enabled.
- Register MFA for User, no need to login further.
- On User device download and Install Sophos Connect:

https://downloads.abitsystems.com.au/support/index.php?p=sslvpnprovision&dl=SophosConnect_2_1_20.msi

- Once Sophos Connect is installed, download:

https://downloads.abitsystems.com.au/support/index.php?p=sslvpnprovision&dl=ABit_Auto_Provisioning_SSLVPN.exe

- Both Downloads are in “ABit Support Downloads > sslvpnprovision”.
 - Keep the downloaded file, “ABit_Auto_Provisioning_SSLVPN.exe”

**Make sure you trust
ABit_Auto_Provision_SSLVPN
.exe before you open it**

- Run "ABit_Auto_Provision_SSLVPN.exe" as Administrator:

- Ignore errors, select required Organisation connection and click OK.

- Follow instructions in popup and attempt 1 connection to SSLVPN profile.
 - ****DO NOT IMMEDIATELY CLICK OK****
 - Initial connection will fail, this is a limitation of Sophos Connect.
