Save item

Item form: catalogue fields and optional photograph

Main fields

- Description, size, vendor, type, location
- Vendor part number (important for matching supply lines)
- On hand and target quantities
- Box quantity and price (ex GST)
- Tender catalogue / supply arrangement / reference (when used)

- Consignment flag and Active flag

On edit, Stockie also shows derived **back order** and **should-order** for the item. You can attach or replace a photograph on edit.

There is no general document store on items in this web version — only an optional photo.

Revision #1
